# ABOUT JSCONF

---

*Conferences for the JavaScript community.*

We focus on two things, **pushing the boundaries of what is thought to be conceivable with JS** and providing **exceptional human social activities** that encourage **community and friendship building**.

Our mission is to **make the technology community better**, more diverse, and more human; in short, we just want to make things better. JSConf does not focus on what is popular or cool now, but on **topics that define and revolutionize the following year of technology**.

*To get a feeling how JSConf looks like visit <https://www.flickr.com/groups/jsconf/pool>*
